IADVL Academy Report: 16th July to 15th December 2022

IADVL Academy has gone through another successful year with the support of IADVL EC. This year with dampening of the pandemic, many physical events took place across country. Simultaneously for the benefit of all members multiple webinars and virtual conferences were also held. Activities conducted on the web are archived on IADVL Digital Academy platform at https://iadvl.mediknit.org/.

Applications were invited for MIDDERMACON 2022 Academy sessions, DERMACON INTERNATIONAL 2023 Orations, Dr B.V. Satyanarayana best thesis award 2022, IADVL Abbott best researcher award and editors and authors for IADVL books. Application forms specifically designed by Academy members (and approved by the EC) are used in order to allow objective evaluation, using a scoring sheet to ensure selection by merit. Confidential evaluation of SIG functioning, and monitoring of e-library usage were regularly performed.

Applications were also invited for IADVL Academy Chairperson, Convener and members (6 vacancies). Nine SIGs will complete their tenure in 2023 and applications were called for SIG Coordinator, convener and members. The evaluations are under process.

CONFERENCES, CMEs/ WORKSHOPS

Second half of the year was full of physical conferences and workshops being conducted across India by IADVL Academy & IADVL Special Interest Groups.

Excellence in Aesthetic Injectables Hands-on workshops

IADVL Presidential project "Excellence in aesthetic injectables", a series of hands-on workshops on botulinum toxin and fillers were kick started with its first event in New Delhi on 31st July. This was followed by five more workshops at Pune, Amritsar, Guwahati, Mumbai and Bangalore. The information was widely publicized by the local state branch and due to limited slots for hands-on applications were invited for participation. Preference was given to those based locally. 15 slots for hands-on botulinum toxin and 15 for fillers were kept for each center. The selection was done by IADVL Academy in consultation with the state branch. These workshops were conducted and planned by SIG Aesthetics headed by Dr Gulhima Arora and Dr Rajat Kandhari along with the whole team of members. The content was prepared and approved beforehand to maintain uniformity. This activity was sponsored by Galderma. Formal feedback was obtained from the attendees and the workshops were graded as excellent by most.

Zonal Dermatosurgery Workshops: A primer for PGs

Four zonal Dermatosurgery workshops were planned in collaboration with SIG Dermatosurgery led by Dr Nilesh Goyal and Dr Syed Mubashir. Three have been conducted so far at Bhubaneshwar, Surat and Amritsar. The last one is planned to be held in January at Puducherry. In addition to talks and lectures, the main focus of these zonal workshops was to

demonstrate live surgeries. At each centre 8-10 surgeries were conducted with live transmission to all delegates. The feedback received for these workshops has been extremely good. IPCA has sponsored these events.

Trichology and Hair transplantation CMEs & workshops:
SIG Trichology and hair transplantation under the guidance of Dr Kavish Chauhan and Dr Kuntal Deb Barman have conducted eight trichology and hair transplantation CMEs/ workshops at Hyderabad, Jaipur, Mumbai, Mangalore, Ahmedabad, Indore, Srinagar and Madurai. These were sponsored by Dr Reddy's Lab. In these CMEs a structured program was planned to give exposure of basic trichology as well as the procedures including PRP and hair transplant. The members of SIG trichology participated enthusiastically and local faculties were also included.

Virtual Journal Club:
Virtual journal club was conceived and executed by SIG DCR under the leadership of Dr Ajith Kumar and Dr Divya Gupta. For each journal club one selected article was presented by a postgraduate student and later discussed in depth by expert faculty. This activity was widely appreciated by all members. This is being conducted on academy zoom platform.

Dermoscopy masterclasses:
Six Dermoscopy masterclasses of one hour each were planned by SIG Dermoscopy under able guidance of Dr Yasmeen Bhat and Dr Biswanath Behera. The aim was to train the young dermatologists and post-graduate students in basics of Dermoscopy. Four classes have been held on the academy zoom platform and two more will be conducted soon. All these are available on the IADVL digital academy platform for all to see.

Monthly Virtual PG Quiz by SIGs:
A monthly online quiz has been conducted since July 2022 with support from IPCA. These are conducted by SIGs in rotation. Till date FGD, leprosy, pediatric dermatology, neglected tropical diseases, acne & appendageal diseases and recalcitrant dermatophytosis have conducted the quiz. The winners are awarded with a certificate.

E-Peddermacon 2022:
Due to operational challenges, a physical event could not be conducted and instead a virtual whole day event was organised in collaboration with SIG Pediatric dermatology headed by Dr Rahul Mahajan and Dr Maitreyee Panda. The scientific program was conceived keeping in mind the basics and advanced learning with participation from international faculty as well. This event was accredited five CME points by Uttarakhand medical council. A total of 1400 delegates registered and attended this event with excellent feedback received. The recording of this is available on our academy platform.

PGCON 2022:
The initial plan of conducting four zonal PGCONs could not materialize and hence a central web-based event was planned. This was coordinated by Dr Shekhar Nana Pradhan. The

conference program was designed keeping in mind the needs of the final year residents with focus on practical exam. Long cases, short cases, spotters, instruments, histopathology, Dermoscopy and drugs were discussed. Video demonstration of common bed side tests and examination procedure was also included. This event was accredited four CME points by UKMC and was attended by over 2200 delegates. The recording will soon be made available on our website.

MIDDERMACON- 2022

MIDDERMACON 2022 held at Lucknow was the most important academic event of the month of September. There were two academy sessions one on updates in dermatology therapeutics and other on emergency dermatology of 90 min each. Along with this two of the SIGs, SIG psoriasis and SIG pigmentary diseases had their focused sessions. All the sessions were appreciated by the delegates.

DERMACON INTERNATIONAL 2023

DERMACON INTERNATIONAL will be held at Mumbai from 23rd-26th February. There will be five SIG sessions by SIG leprosy, lasers, aesthetics, female genital disease and pediatric dermatology. The speakers and topics proposed by the SIG coordinators and conveners have been approved by IADVL Academy and EC and communicated to the scientific committee of the conference. The speakers for the IADVL Research Grant session were also finalized.

IADVL OBSERVERSHIPS

For Observerships 2022, 226 applications were received for 28 centers. The list of selected candidates was approved and announced during DERMACON 2022. There were 50 seats for< 35 years candidates and 20 seats for >35 years candidates. Till date 38 students have completed and some are about to complete. The announcement for IADVL Observerships 2023 was made in November for 99 seats (<35 years) and 32 seats (>35 years) with the last date of application being 10th December. The applications received are being evaluated by the academy members and the final list of selected candidates will be announced before DERMACON 2023.

IADVL Training Program

At present we have seven training centers. For 2022, 13 candidates were selected. Four of them have completed their training and two are about of complete. For 2023 also 13 seats were advertised. The last date of application is 3rd January. The selection will be done by academy members using predesigned and approved proforma and the result will be announced before DERMACON 2023.

Research projects and Grants

IADVL Research Grants and IADVL Glowderma Research Grant-2022

Applications were invited from members of IADVL for research grants for projects in Dermatology, Leprosy and STIs. A total of 18 research proposals were submitted by the IADVL members for research grant for the year 2022. The comments of initial review by the members of SIG Dermatology Clinical research were communicated to the Principal Investigators. All the revised proposals were discussed and scored by the jury members during the IADVL Academy meeting held on 18.06.2022. Various aspects including funding, sample size, methodology, novelty, feasibility, and ethical issues were taken into consideration while deciding on the research grant. Based on the scores obtained, proposals were shortlisted for IADVL Research Grants for 2022. The investigators of all the shortlisted proposals were informed regarding the results of the jury meeting along with jury's comments related to budget allocations and research methodology. Based on the satisfactory modification of shortlisted proposals, the final list of six research proposals eligible for IADVL Research Grant 2022 and one for IADVL Glowderma research grant 2022 were announced on along with a request to submit necessary documents for disbursement of first instalment of grant.
